

Reconstruction of Franklin, Locust, Walnut, Washington & West Streets

The Village has received a \$40,000 Community Development Block Grant (CDBG) from the Darke County Commissioners to reconstruct the base and surface of several streets. This work will be completed with a process known as "pavement resurfacing with subgrade stabilization". The Council has committed approximately \$66,000 towards this project to make much needed improvements to this area. The locations to receive reconstruction are as follows:

- 1) Franklin Street: Locust Street to Walnut Street
- 2) Locust Street: North Street north to Franklin Street
- 3) Walnut Street: North Street to Franklin Street
- 4) Washington Street: West Street to Walnut Street
- 5) West Street: A small area at the alley between North and Washington Streets

Due to the type of work involved, some minor inconvenience will occur, but local access to homes will be maintained. This work is anticipated to take place between in the summer of 2016 with a construction period of approximately one month.
