

Hello Everyone;

Another month just flew by. Big Trash day has come and gone already. Old Fashioned Days just slipped by and now its Little League Baseball time. Brush pick up for June is the 8th and 22nd and July 13th and 27th.

Automated Sewer Plant Update, Paperwork! Paperwork! Paperwork! Construction startup date has been pushed back to the end of July. Legislation is in the second reading to add an additional \$12.00 to you monthly utility bill for a total increase of \$22.00 this will appear on your bill as \$5.00 Operations and Maintenance and \$17.00 Sewer Debt Reduction Charge, these charges are for the maintenance, operation, improvements, repairs and debt reduction for indebtedness. This increase will be appear on the August billing.

The Utilities Department would urge you to locate your water main shut off in your home and exercise it at least once a year. If you do not have one, you should plan to put one in. The in house shut off will eliminate you from having to make an emergency call and will eliminate you from paying a \$100 per trip charge for an after hour's emergency. Emergency "call in's" for the Utility Department are increasing each month. This creates paying Village overtime.

Council has appointed Gregory Baumle to fill the vacant council seat created by the resignation of Julie Willis. This will be 1 of 4 seats to be voted on in November.

The 2016 Consumer Confidence Report for your drinking water can be located on our village website www.villageofarcanum.com. Also, please visit the website for up to date calendar events.

The Arcanum Pool will be opening June 5th! On the village website under Parks/Recreation are the 2017 rates and swim lesson information.

Respectfully

"Judy's on Duty"
