

# VILLAGE OF ARCANUM

**Village Administration:** (937) 692-8500

**Website:** [villageofarcanum.com](http://villageofarcanum.com)

---

Spring is finally here! Let's put the winter clothes away and get ready for warmer weather. We have several projects going on in the village and it is an exciting time to be an Arcanum resident. I am beginning to see more citizen involvement in our meetings, but I want to again encourage you to attend council and committee meetings. When we all work together and collaborate great things can (and are) being achieved!

**Easter Egg Hunt.** *Save the Date:* April 20<sup>th</sup>, 2019: Faith Methodist Church and FHC Fellowship will be hosting an Easter Egg Hunt for all Arcanum children up to 4<sup>th</sup> grade. The hunt will be in Ivester Park at 1:00 p.m. The hunt will take place rain or shine. Children should bring an Easter basket to collect their eggs. The eggs will have individually wrapped pieces of candy and there will be a limited number of special prize eggs. Refreshments will be provided after the hunt. If you have questions, please contact the Faith UMC office at (937) 692-8934. Office hours are 9:00 a.m. to noon, Monday through Friday.

**Employee Spotlight.** Tax Administrator, Nola Ditmars, has been employed by the village for over five years. She lives in Arcanum with her husband Curt, has three children, and three granddaughters. Outside of work, Nola enjoys spending time with her family and motorcycle riding. In March 2019, Nola was recognized for her efforts in helping with our recent transitions in the Village Administrative Office. I look forward to her future service to make tax time as painless as possible (which is no easy feat!) for all of our residents.

**New Village Building.** Over the past year, village council and the administrative staff have been diligently working on a permanent solution for our Village Administrative Building and Police Headquarters. At the time of this printing, we have been approved by the USDA for funding a new facility. This project will create a building approximately 7200 sq. ft. to house the new administrative offices and police department. The Planning Committee has been working to create an effective and efficient design for the building. Stay tuned for further updates!

In closing, I want to thank Vanessa Delk for her years of service on the village council. Council has appointed Rick Genovesi to serve the remainder of her term. Welcome aboard, Rick!

\*Please see reverse side for instructions on limb removal\*
